IMMOBILISER REQUIREMENTS

Unless exempt, all vehicles must be fitted with an approved immobiliser. It is the responsibility of a proposed licence holder to ensure that an approved immobiliser is installed. Some exemptions are available; for a complete list visit www.transport.wa.gov.au

For further information on approved immobilisers contact your local authorised installer, visit www.transport.wa.gov.au/dvs or call the Department on 13 11 56.

An approved immobiliser is:

- Factory fitted (i.e. fitted at the time of manufacture). The vehicle handbook should be able to confirm this.
- Self arming (i.e. devices which automatically arm themselves without assistance from the driver) and prevents the vehicle from being started.

DEFINITIONS

Purchase Price

The purchase price, in respect of a vehicle, includes any of the following —

- an amount allowed by the seller on a trade-in or an exchange of any article;
- an amount paid to the seller for anything included with or incorporated into the vehicle;
- an amount paid to the seller for the preparation of the vehicle for delivery to the purchaser.

Dutiable Value

The term "dutiable value" is defined by Division 5 of the *Duties Act 2008*. The following interpretation is provided as a guide only.

Certain New Vehicle

The dutiable value of a new vehicle (motor car, motor wagon or motorcycle that is designed primarily to transport people or goods) is the price fixed (list price) by the manufacturer, importer or principal distributor as the retail selling price in Western Australia of a vehicle of that make and model; and for each optional feature in or of the vehicle, the additional amount fixed by the manufacturer, importer or principal distributor for retail sale in Western Australia of the optional feature.

The retail selling price of the vehicle or optional features is taken directly from the price fixed by the manufacturer, importer or principal distributor.

Where there is no price fixed by the manufacturer, the dutiable value is the amount that the vehicle might reasonably be sold for in the open market.

Charges embedded into the list price of the vehicle, such as fixed order and transportation costs when purchasing a vehicle directly from the manufacturer, will still form part of the dutiable value.

Optional Features

An optional feature is any particular kind of transmission in a vehicle (e.g. automatic), any kind of engine in a vehicle (e.g. a V8 engine), or any other feature in or of a vehicle prescribed by the regulations, that is not a standard feature of a vehicle of that make and model.

The price of other features or accessories that are not defined as optional features (including, but not limited to, window tinting, sound system speakers, mag wheels, paint, rear spoilers, fabric and rust protection) should not be added.

List Price

Means the price that has been fixed by the manufacturer, importer or principal distributor as the retail selling price in Western Australia of a vehicle of that make and model.

Other Vehicles

The dutiable value of other vehicles that are not new vehicles is the amount for which the vehicle might reasonably be sold, free of encumbrance, in the open market. This is generally the purchase price of the vehicle where the parties are unrelated and unaffiliated (independent parties). The dutiable value includes the value of any accessories fitted onto the vehicle at the time of licence grant or transfer.

NOTE: Vehicles which are gifted or ownership is transferred to another person for no monetary gain need to have an amount provided for which the vehicle might reasonably be sold, free of encumbrances in the open market i.e. its dutiable value.
